

Joyroom PN-15B2 Magsafe Glacier Case for iPhone 15 Pro (clear)

Ref: 6976788020629

Joyroom PN-15B2 Magsafe Glacier Case for iPhone 15 Pro (clear)

Joyroom PN-15B2 Magsafe Glacier Case for iPhone 15 Pro (transparent).

Bring a touch of elegance into your life with Joyroom. The Glacier series magnetic case is distinguished by high-gloss crystals, which are precisely arranged at the phone's lens. High-quality materials were used for its construction, ensuring resistance to marks of use, so your iPhone 15 Pro will always look aesthetically pleasing. In addition, the built-in magnetic ring allows for convenient use of MagSafe accessories.

High-quality crystals

The Joyroom Glacier case was inspired by the beauty of glaciers. The selected high-gloss crystals that adorn the accessory come from the same factory as the famous Swarovski crystals. Thanks to hand inlays and the use of advanced techniques, every detail has been perfected.

Durable materials

German Bayer materials were used in the production of the Joyroom Glacier case, which managed to ensure durability and resistance to yellowing. The innovative AR coating, which was made using nanotechnology, along with an oleophobic coating provides protection against grease and fingerprint marks - as a result, the accessory always looks aesthetically pleasing.

Magnetic design

The Joyroom Glacier case is equipped with a magnetic ring that allows the use of Magsafe chargers and accessories. This makes the product not only visually stunning, but also highly functional.
