

Water Fountain for pets Rojeco 2,5L (black)

Water Fountain for pets Rojeco 2,5L (black)

Ref: 6975116293278

Rojeco 2.5L Smart Fountain/Cat Drinker (black).

Rojeco introduces a modern and intelligent solution in the form of the RYSJ-09 fountain/ drinker, designed to provide constant access to fresh and clean water for your dog or cat. With a capacity of 2.5 liters, this device is able to meet the weekly needs of two cats, so you don't have to worry about frequent water refills. The dual-bowl design allows two pets to use it at the same time, making it ideal for households with more than one pet.

Clean and fresh water thanks to multi-stage filtration

The fountain is equipped with an advanced filtration system consisting of four layers designed to remove a variety of impurities such as hair, dander and other fines. The materials used, including ion exchange resin to remove heavy metals, activated carbon from coconut shells to neutralize unpleasant odors, and a dense filter to catch hair and dust, guarantee the highest quality water for your pet.

Ultra quiet operation and ease of use

Thanks to the use of a low-pressure 5V pump, the fountain operates very quietly, generating a noise level of only 30 dB, which does not stress pets and allows you to place the device anywhere in the house. The transparent water tank makes it easy to monitor the water level, and the modular design makes cleaning the fountain simple and intuitive.

Included
Water container
Filter tray
Drinking tray
Filter
Pump
Inlet tube
Water discharge end
Power adapter
