HP DHE-7000 wired headphones (black)

The HP DHE-7000 headphones are designed to provide the highest level of sound and comfort. They offer fantastic audio quality, and with a built-in microphone, they also work well for phone calls. In addition, the 3.5mm connector makes them compatible with many popular devices available on the market.

Excellent sound quality

Discover the new sound of your favorite songs. The HP DHE-7000 headphones provide excellent audio quality thanks to a wide frequency response of 20 Hz to 20 kHz. What's more, sensitivity of about 90 dB and low distortion make every sound clear and crisp, regardless of volume.

Comfort and fit

Enjoy long hours of listening to music, watching movies or making phone calls without feeling uncomfortable. The headphones are distinguished by their carefully thought-out design, so they are very comfortable and fit perfectly in your ears. Don't worry about them falling out or applying uncomfortable pressure!

Built-in microphone

The headphones are also equipped with a microphone, which allows you to make phone calls conveniently. Work, home, shopping mall or supermarket - with HP you get the assurance that wherever you are, the other person will hear you without any problems!

Wide compatibility

Thanks to the use of a 3.5 mm jack connector, the headphones are compatible with most popular devices of well-known brands. You can easily connect them to, for example, a smartphone, tablet or laptop - no need to limit yourself!
