HP DHS-2101 wired speaker set (black)

The HP DHS-2101 wired speakers are the ideal solution for those who appreciate excellent sound quality, but want to save space on a shelf or desk. They are equipped with 2-inch drivers and feature a compact design, and are compatible with a wide variety of devices thanks to a 3.5mm connector.

Exceptional sound quality:

With an RMS output power of 3 W x 2 and 2-inch drivers, the HP DHS-2101 speakers offer clear and dynamic sound that is sure to meet your expectations. In addition, the frequency response of 200 Hz to 16 kHz guarantees rich tones whether you're listening to your favorite music, watching movies or playing games. Also noteworthy is the thoughtful design of the devices - they are angled to ensure better sound propagation.

Convenient to use

The compact dimensions (77 x 174 x 91 mm) mean that the speakers do not take up too much space - you can easily place them even on a small desk. You also have a special knob that allows you to conveniently adjust the volume. What's more, the anti-slip pads placed on the bottom of the devices prevent them from sliding on the desk surface.

Universal compatibility

The speakers are equipped with a 3.5 mm jack connector, making them compatible with most popular devices. For example, you can easily connect them to your computer, laptop and more. You don't have to limit yourself!
