HP DHS-2111 wired speaker set (black)

The HP DHS-2111 is a 2.0 speaker set that is perfect for the home. It won't take up much space on your desk, while still providing high quality sound. It allows you to conveniently adjust the volume, and thanks to its refined design, it offers high-end stereo sound.

High quality sound

The speakers provide a wide frequency response (160 Hz - 20 kHz), so you can enjoy stereo sound. What's more, you don't have to worry about interference even when the volume is high - you can adjust it with a dial integrated into the cable.

User-friendly

Operating the speakers will not cause you any problems. Thanks to plug&play, you can easily prepare them for work - just connect the set to your computer, laptop, smartphone or tablet using a 3.5 mm audio jack cable.
