Wireless Charger 4w1 15W Essager PD (black)

## Wireless Charger 4w1 15W Essager PD (black)

You no longer need several chargers to charge several devices! Essager EWXZM-JC01-Z is a 4-in-1 charger with which you will renew the energy of your smartphone, headphones, smartwatch and tablet stylus. The product offers power at 15 watts and offers a number of safety features to protect your equipment from damage.

## Fast charging of devices

You no longer have to waste time charging your devices for long periods of time. The Essager charger uses 15 watts of power and is backward compatible with 10 watts and 7.5 watts. This will quickly renew the power of your Apple Watch, Bluetooth headphones, 1st generation Apple Pencil and smartphone. You will use the charger to charge several devices at the same time or just one of them.

## Safe to use

The charger is equipped with strong magnets that provide stability - you don't have to worry about your device falling and being damaged. The product also supports protection against short circuit, short circuit, overheating, electromagnetic field, etc.

## User-friendly

The charger allows you to adjust the angle of tilt at 2 levels: 45° i 60°. You can also easily fold the product and pack it in your bag or
