APEXEL APL-JJ07 tripod/handle (black)

The APEXEL APL-JJ07 tripod is a versatile tool that will successfully find its way into the arsenal of any photography and filming enthusiast, regardless of the level of expertise. Its unique design with flexible legs, made of ABS combined with aluminum alloy, provides not only strength, but also the flexibility needed to work in a variety of conditions.

Flexibility and compatibility at the forefront

With an adjustable length from 16 to 32 cm and a weight of 250 g, the APEXEL APL-JJ07 tripod is both handy and stable enough to support a wide range of devices. Its compact dimensions, 26 x 5.6 x 4.2 cm, make it easy to fit in a bag or backpack, always on hand whenever you need to capture an unforgettable moment.

Detachable components for greater functionality

The tripod is distinguished by its detachable legs and clip, which significantly increases its versatility. The top of the unit can rotate 360°, allowing you to easily adjust the angle of your shot without having to move the entire tripod. In addition, a non-slip pad on the bottom provides stability on a variety of surfaces, and its detachability opens up new configuration possibilities for the user.

Wide compatibility with devices

The APEXEL APL-JJ07 works with a variety of devices thanks to its universal 1/4-inch screw. Compatibility with a phone, digital camera, LED flash or projector makes the tripod extremely useful in a variety of situations - from professional photo shoots to video creation to presentations and demonstrations. The cell phone clip, which supports devices up to 6 inches, further expands its range of uses.

Tripod legs - dual function

A unique feature of the APEXEL APL-JJ07 tripod is that its flexible legs can be used not only as a base, but also as a mount for various devices, including lamps. Such functionality makes it ideal for those looking for a versatile and easily adaptable accessory.
