Phone holder/tripod APEXEL APL-JJ21FL with LED light (black)

APEXEL APL-JJ21FL phone/stand holder with LED light (black)

In the age of social media, where everyone wants to make their photos and videos stand out, the Apexel APL-JJ21FL phone/stand mount with LED light will be an indispensable tool to achieve this goal. This innovative gadget combines functionality and versatility, offering users a new level of control over lighting when creating content.

Lighting tailored to your needs

One of the components of this device is an LED lamp that offers three levels of brightness. Thus, regardless of the lighting conditions, you can adjust the intensity of the light to your needs, providing optimal conditions for creating photos or live broadcasts. In addition, the 12 LEDs guarantee even and powerful illumination, which can significantly improve the quality of your work.

Versatility and comfort of use

The APL-JJ21FL is characterized by extreme versatility. It was designed for a wide range of applications - from selfies to live broadcasts to video recording. Thanks to its compact size (135 × 240 mm) and lightweight design (90 g), this device is convenient to carry and can accompany you in any situation. In addition, the Apexel APL-JJ21FL mount/stand is made of durable ABS+PC materials, ensuring long-lasting use and resistance to daily wear and tear. Powered by two AAA batteries (not included).
