Tripod K&F Concept T254A7+BH-28L (KF09.119)
Tripod K&F Concept T254A7+BH-28L (KF09.119)

K&F Concept T254A7+BH-28L tripod (KF09.119)

Conveniently capture unforgettable moments with the K&F Concept tripod! It allows you to adjust the height up to 230 cm and the angle of tilt, giving you unlimited possibilities for creative photography. Equipped with a removable monopod, it allows flexible framing of scenes even in confined spaces, giving photographers more freedom in their work. The tripod's 4-section leg design makes it take up little space when folded, making it easy to carry and transport.

Gain control over your frames

Discover the full range of photographic possibilities! With an adjustable height from 66.5 cm to as much as 230 cm, you have full freedom in positioning the tripod, whether you want to capture a picturesque landscape or focus more closely on small details. The accessory also offers 0-120° angle adjustment, and the ball head allows for smooth 360° panoramic movement, allowing you to experiment with different perspectives and creatively control the composition of your photo.

Creativity without limits

Now every shot can be unique and full of creativity! The tripod allows you to position the camera in a variety of positions, including horizontally, vertically, inverted and from above, giving you complete freedom to create unique photos from different perspectives. Whether you want to capture a landscape in its full glory or experiment with unconventional angles, the accessory will allow you to

realize your most creative visions.

Greater ease of use

The tripod is designed with ease of use in mind. It features 4-section legs that you can easily lock with special latches. The adjustment of the central and cross columns is intuitive, and the operation of the ball head is smooth and effortless. This allows you to focus on creating excellent photos without worrying about technical settings.
