

## Backpack 15L K&F Concept Beta V2

Backpack 15L K&F Concept Beta V2

Ref: 6975482320790

### K&F Concept Beta V2 15L Photo Backpack

The new Beta V2 photo backpack from K&F Concept combines sophisticated design with practicality, designed to meet the needs of modern photographers. Offering a capacity of 15L, the backpack will easily accommodate 2 cameras and 5 lenses, ensuring safe and ergonomic placement of equipment.

### Optimized space for laptop and accessories

An independent rear pocket provides safe and convenient carrying of a laptop up to 15 inches, which is crucial for photographers who need space for post-production in the field. Additionally, the backpack offers a front layer with three mesh pockets, ideal for small photography accessories.

### Customized fit and easy access

A removable, padded compartment allows for easy configuration of the backpack's interior, while eight sturdy Velcro compartments allow you to customize the size and shape of your gear. With a retractable tripod holder and external bottle mount, water or other beverages will always be close at hand.

### Modernity and convenience in every detail

Quick access to the front pocket designed for small accessories increases the comfort of the backpack. In addition, the back panel with the possibility of attaching to a cart case makes it easy to travel with the backpack, making it an ideal companion for any photographer.

#### Compatibility and protection

The Beta V2 backpack is compatible with a wide range of DSLM and DSLR cameras, including the popular Canon EOS, Sony Alpha, Nikon D and other models. The use of high-quality materials ensures that your equipment is protected from outdoor conditions, while ergonomic features ensure comfortable carrying. You'll also find a special waterproof backpack cover included to ensure safety in all weather conditions.
