Protective Cover Hood PULUZ DJI OSMO Pocket 3 (Black)

Puluz DJI Osmo Pocket 3 Lens Hood

The Puluz lens hood is an excellent solution for the DJI Osmo Pocket 3 camera, which not only facilitates creating content in various lighting conditions but also protects the lens from accidental collisions with foreign objects during recording. The lightweight design and easy installation ensure that the hood does not limit the comfort of using the camera, and precise fitting ensures that it does not interfere with the gimbal's operation. Remember that after installing the hood, you should start the camera and adjust the gimbal - try selecting the FPV mode; otherwise, it may affect the recording quality.
