Filter ND32&PL K&F Concept for DJI Mini 4 Pro

Ref: 6942052514835

K&F Concept ND32&PL filter for DJI Mini 4 Pro

Be prepared for challenging lighting conditions and create even more beautiful shots with your DJI Mini 4 Pro drone. The ND32/PL filter by K&F Concept will provide you with excellent image quality, and thanks to its multi-layer coating, it is extremely durable and wear-resistant. It is also distinguished by its very lightweight design. At the same time, the accessory is extremely easy to install - just a short moment to mount it and get ready to fly!

Ideal for recording in bright sunlight

If you plan to take photos or record videos in bright sunlight, the ND32/PL filter will certainly come in handy. The accessory offers 5-step light reduction, and also eliminates glare and improves contrast. As a result, every shot will impress you with rich details and crisp, vivid colors!

Improved design

The filter is made of AGC optical glass, so it not only provides great image quality, but is also very durable. In addition, its surface is covered with a multi-layer coating that protects it from dirt, water and scratches. You can easily keep it in fantastic condition! The accessory is also distinguished by a very lightweight design - it will not overburden the drone or affect its operation.
