

## Filter UV K&F Concept for DJI Mini 4 Pro

Filter UV K&F Concept for DJI Mini 4 Pro

Ref: 6942052514781

K&F Concept UV filter for DJI Mini 4 Pro

Take care of protecting the lens of your DJI Mini 4 Pro drone and create even more stunning shots. The MCUV filter by K&F Concept nullifies ultraviolet light and is perfect for a variety of recording scenarios. Lightweight and durable - it will serve you well for a long time. It's also very easy and quick to install - you'll mount it in no time.

Reliable protection for your drone's camera

The MCUV filter will effectively protect your drone's camera from scratches and prevent dirt from getting into it. As a result, you can fly with peace of mind! What's more, high-grade AGC optical glass is used to make the accessory, allowing you to enjoy excellent image quality.

Lightweight and durable

Don't worry that the filter will overburden your DJI Mini 4 Pro. The accessory is extremely lightweight - it will not affect the flight stability of the drone or the operation of its gimbal. It is also distinguished by its high durability - a multi-layer coating protects its surface from scratches, water and dirt. So you can easily keep it in great condition!
