Filter CPL K&F Concept for DJI Mini 4 Pro

Ref: 6942052514774

K&F Concept CPL filter for DJI Mini 4 Pro

Want to create even better shots with your DJI Mini 4 Pro drone? Stock up on a CPL filter from K&F Concept! It will give you fantastic image quality and delight your audience. The accessory is also very lightweight yet sturdy, and it only takes a moment to install - now you'll be ready to record in no time!

Ideal for landscape photography and more

You will find the CPL filter useful primarily for landscape photography, but you can successfully use it in other scenarios as well. The accessory effectively reduces glare and improves color saturation. It also emphasizes white and blue tones - you'll find it useful for recording skies and water.

Refined in every detail

Using high-quality AGC optical glass, the filter guarantees fantastic image quality. At the same time, it is very durable - thanks to the multilayer nano-coating, it stands out for its resistance to scratches, water and dirt. You will keep it clean without any problems! Its additional advantage is its lightweight design - the accessory will not in any way affect the flight stability of the drone or interfere with the operation of its gimbal.
