Filter CPL K&F Concept for DJI Air 3

Ref: 6942052512480

K&F Concept CPL filter for DJI Air 3

Want to create even better photos and videos with your DJI Air 3 drone? Stock up on a CPL filter from K&F Concept! With its help you will get fantastic results that are sure to impress you. The accessory is distinguished by its sturdy, yet lightweight design, so it is resistant to damage, and at the same time it does not put undue strain on the drone. At the same time, it is very easy to install.

Image in the highest quality

The CPL filter effectively eliminates glare and improves color saturation, while highlighting white and blue colors. What's more, it uses high-end AGC optical glass, so you can enjoy stunning, lossless image quality. You will successfully use it for landscape photography and more!

Refined in every detail

Thanks to its lightweight and thin design (only 6 mm thick), the filter will not overburden your drone or affect its flight stability. You also don't have to worry about damaging it - the product is very durable and scratch-resistant. It is also distinguished by a multi-layer coating that protects its surface from water and dust - you will easily keep it in perfect condition!
