Mobile lens APEXEL APL-MS002BK 200X micro (black)

APEXEL APL-MS002BK 200X Micro Phone Lens (Black)

The APEXEL APL-MS002BK 200X Micro Phone Lens is an exceptional solution for the curious and for those in need of a precise tool for specific tasks. Whether you are interested in analyzing the surfaces of plants, minerals, jewelry, materials, or electronics, or simply want to look at the world from a new perspective, this lens allows you to get up close, rediscovering the world with child-like curiosity.

Two Hundred Times Magnification

The biggest advantage of the APEXEL APL-MS002BK 200X Micro Phone Lens is its ability to magnify objects two hundred times. This high level of magnification turns ordinary items into fascinating micro-worlds full of surprises. Just one look through this lens reveals new details previously invisible to us. Whether you're a science enthusiast, an artist seeking inspiration, or simply extremely curious, the two hundred times magnification of this lens will undoubtedly allow you to view the world from a new perspective.

Battery Charge Indicator

The built-in light indicator not only informs about the device's charge status but also allows the adjustment of lighting brightness to current needs. The control of the indicator is located on an intuitive button, which also serves as a brightness regulator, offering two levels of illumination. This ensures that you always have the optimal conditions for observation.

Versatility

The phone does not require downloading any additional apps and is compatible with both Android and iOS devices. This makes it extremely convenient and accessible for most smartphone users.

Adjustable Lens Construction

Another important feature to highlight is the adjustable construction of the lens, allowing for flexible height positioning to the user's device. This gives you complete freedom in manipulating settings, ensuring comfortable and effective use of the lens in any situation.
