

Camping Lamp SuperFire T5, 277lm, USB

Camping Lamp SuperFire T5, 277lm, USB

Ref: 6956362903852

Supfire T5 camping lamp

The Supfire T5 camping lamp proves itself in many applications. Range up to 100m, 6 operation modes and powerbank function allow you to use it in different ways, even in the most diverse situations. Additional advantages are IP46 protection and 5400mAh battery. Find out what else will surprise you with this functional device!

Works in many ways

Choose from 6 operation modes to adjust the light to your needs. It can shine from the front or from the side, generating light in different intensity levels - weak, standard or strong. The T5 will also provide you with a red/blue warning light. The lamp also emits a yellow light to repel insects - this mode will come in handy especially in summer!

Charges your phone

The powerful rechargeable battery gives the T5 a runtime of up to 690 minutes (headlight) or up to 340 minutes (sidelight). You can charge the device with a USB cable - it's compatible with different types of chargers. You can also use the built-in USB port to turn the T5 into a handy powerbank and charge your phone! Your smartphone will never be cut off from a power source again.

Well thought out design

The T5 weighs only 305g and has a compact size. This makes it convenient to take it with you wherever you want to use its functionality. Moreover, magnetic elements of the device enable its stable mounting on specific surfaces. This is not the end of the surprises! At the end of the lamp you will find a practical glass breaker - you never know when you will need such a tool!

Stunningly multifunctional

The lamp can perform various functions and is suitable in many scenarios. You can use it for camping, during a bicycle trip or a night out. It is also suitable for use as a warning light. It can also serve as a small desk lamp, flashlight or searchlight. You can conveniently charge your phone with the Supfire T5 as well. The possibilities are enormous!
