Gaming set 4in1 Havit GAMENOTE KB675CM headphones + keyboard + mouse + mouse pad

### Havit KB501CM 4-in-1 gaming set

The Havit KB501CM 4-in-1 gaming set is the perfect solution for any gamer. You will find in it the necessary elements that will allow you to enjoy the gameplay like never before. The mouse with 4-position DPI adjustment up to 2400 and the keyboard with anti-ghosting system provide lightning-fast response and unparalleled smoothness. With convenient headphones with a microphone, you can easily communicate with your team members. A durable, non-slip mouse pad is also included.

### The ergonomic keyboard you need

The included keyboard offers an anti-ghosting system, so you are no longer in danger of accidentally shutting down the game at the least opportune moment. What's more, using the device will make it easier for you with practical function keys. The design of the device is extremely stylish and ergonomic at the same time. The keyboard is comfortable to use, does not strain your wrists and does not tire your hands. Pressing the keys is also easy and pleasant - just the way you need it!

### A mouse that you adapt to the dynamics of gameplay

The right mouse is of paramount importance when playing a game. It should allow you to react quickly to the movements of your opponents and ensure smooth action. It's also worth it if it can be adjusted to the current gameplay situation. The mouse you will find in the Havit KB501CM kit has a sensitivity adjustable in the range of 800-1200-1600-2400 DPI, so you can easily adjust it to your

preferences. In addition, the 1.5-meter long cable will give you the freedom you dream of. The device is also distinguished by its ergonomic design and stylish RGB backlighting.

Headphones that will allow you to communicate freely with your team members

The headphones you will find in the Havit KB501CM set will delight you with excellent sound quality. This is responsible, among other things, for the high-quality 40 mm speaker. The device is also equipped with a microphone, which will make it easier for you to communicate with the other players. Don't be afraid that the headphones will turn out to be too heavy and uncomfortable - they will surprise you with their comfort. You will easily adjust them to your liking and enjoy crystal clear sound for a long time. Your opponent will not surprise you anymore - you will hear him perfectly!
