

## Flashlight Nitecore MH12 V2, 1200lm, USB-C

Flashlight Nitecore MH12 V2, 1200lm, USB-C

Ref: 6952506405985

### Nitecore MH12 V2 Flashlight

Nitecore MH12 V2 is an improved tactical flashlight that can shine with up to 1200lm of brightness. Available modes and included accessories make it perfect for many applications. Its working time can reach up to 1500 hours. The device fits perfectly in your hand, is extremely light and handy, and also durable and resistant to damage.

### Impressive power

The flashlight is equipped with a high-end CREE XP-L2 V6 LED, which has a lifespan of up to 50,000 hours. It also uses advanced technological solutions such as PDOT. Thanks to that it shines with the output of up to 1200lm, does not blink and generates bright, steady light. Range of up to 202m makes the device perfect for example during expeditions in difficult terrain, patrols and search actions. There is also a Strobe function, which makes the very bright light blink at a random frequency (in the range of 16-20Hz), allowing to blind and disorient a possible attacker.

### Choose from available operating modes

What else makes the flashlight great for different scenarios? The MH12 V2 offers 2 modes of operation - Daily and Tactical. The first one

allows you to choose from 4 brightness levels and 3 functions - Strobe, Beacon and SOS. You will successfully use it every day. The second one also allows for 4 levels of brightness adjustment, it also has a Strobe function - better suited for self-defense and tactical operations. Switching between modes is very easy and fast. In Daily mode, the flashlight also remembers the last used brightness level and Strobe function.

#### Convenient charging

The kit includes a 21700 NL2150 5000mAh rechargeable battery that can power the flashlight for up to 1500 hours (in Ultralow mode). You can also use one 18650 battery or two CR123 / RCR123 batteries (sold separately) to power the device - you'll find an extra battery magazine in the package to accommodate them. For convenient charging of the MH12 V2, you can use the built-in USB-C port, which is equipped with a cover to protect it from dust, water and debris.

#### Many attachment options

The kit includes practical accessories that give you more options for attaching and carrying your flashlight. In the package you will find, for example, a tactical holster and a special clip, with which you can attach the device to your pocket or backpack. The flashlight is also compatible with a special NTR10 Tactical Ring Pro sold separately), which allows you to hold the flashlight even more comfortably and securely.

#### Excellent build quality

The MH12 V2 is made from durable aircraft-grade aluminum, and uses a hard anodizing process (military grade HA III) for its finish. Thanks to that it is extremely durable and resistant to damage - even a fall from a height of up to 1m will not scare it. It is also distinguished by IP68 water resistance. You can also immerse it to a depth of up to 2m without worry. In addition, thanks to ATR technology, the flashlight automatically adjusts its operation to environmental conditions.

#### Comfort of use

The use of the highest quality materials makes the flashlight not only durable, but also surprisingly lightweight - it weighs only 84.5 g. The device is also extremely handy and compact. It fits perfectly in your hand, and its non-slip components ensure a secure grip. Easily accessible buttons allow convenient operation of the flashlight, and a built-in light indicator shows the remaining battery power.
