Headlamp Nitecore NU35, 460lm, USB-C

Ref: 6952506406289

Headlamp Nitecore NU35, 460lm, USB-C

Nitecore NU35 headlamp
The Nitecore NU35 headlamp will find use in camping, mountain expeditions, as well as at work - for example, in inspections, rescue operations and industry. It offers a headlamp that shines with the output of up to 460lm, as well as auxiliary lighting - red and white. It is equipped with a durable rechargeable battery with a capacity of 590mAh and allows the use of 3 AAA batteries as an additional power source. The flashlight is also lightweight, durable and waterproof to IP66.

Bright headlight
The CREE XP-G3 S3 LED headlamp provides illumination with up to 460lm of brightness and a range of up to 48m. Thanks to the applied technologies such as TrueVision, for example, the flashlight offers an even, eye-safe, stable light that does not flicker and does not tire your eyes. You can use it without any problems even for a long time. All this makes the NU35 perfect for search and rescue operations, among others.

Auxiliary lighting
The Nitecore headlamp also has additional auxiliary light sources. The red light is ideal for nighttime use, such as wildlife watching or

taking photos. The white light is distinguished by high color rendering index (CRI≥90). You will find it useful for example on a camping trip, it will allow you to comfortably read books, it will also be used in case of power failure.

Dual power source

NU35 can use 2 power sources. It has a built-in rechargeable lithium-ion battery and is also compatible with 3 AAA batteries. In total, it works up to 10 hours at High brightness level or up to 340 hours at Low brightness level. To charge the device, use a USB-C cable. A special light indicator will let you know about the battery status. What's more, you can easily use the headlamp also during charging. Battery replacement is extremely easy and convenient. In addition, thanks to APC technology in standby mode, the flashlight lasts up to 365 days.

Customize it to your needs

You can easily adjust the operation of the flashlight to suit your needs. The NU35 provides a 4-stage brightness adjustment of 1 / 38 / 210 / 460lm. It allows you to use an auxiliary white light (22lm) or red light, which power you can adjust in the range of 2 / 12lm. There is also a red flashing warning light, as well as special SOS and Beacon modes. Convenient operation of the flashlight is provided by 2 switches equipped with an additional cover, so you can avoid accidentally pressing them.

Solid construction

Sturdy PC plastic is used to make the flashlight, which makes the device extremely durable and resistant to damage. Even a fall from a height of up to 1m will not pose a big threat to it! Headlamp is also distinguished by water resistance IP66. This means that you can also use it in the rain without any worries. Even very demanding conditions will not frighten it!

Comfort of use

The NU35 head flashlight is extremely comfortable and lightweight at only 79.5g. The elastic band is made of breathable, skin-friendly materials and stays firmly in place. Reflective elements increase your visibility in the dark, and a special silicone strap keeps sweat directed to the sides of your head so it doesn't drip into your eyes and irritate them. You can also tilt the flashlight up to 80°.
