

Computer speakers Havit SK212 2.0 Bluetooth RGB

Ref: 6939119089528

Computer speakers Havit SK212 2.0 Bluetooth RGB

Havit SK212 computer speakers 2.0

The product will take you to a future where speakers are more than just a source of sound, but also bring an extraordinary atmosphere with dynamic RGB lights. The product has a built-in stereo 2.0 channel. These small devices with dimensions of 86x86x165mm offer a great output power of 5W x2. You can connect to them via Bluetooth 5.0 or via 3.5mm port.

Dynamic RGB lights

The dynamic RGB lights that the speakers are equipped with provide an additional visual experience. Regardless of the type of music, they will put you in the right mood. The timeless design makes SK212 fit perfectly into any interior and will be a decoration of your desk.

Stereo channel 2.0

Would you like to feel like you're at a concert or in the middle of events? This device will give you that. Built-in 2.0 stereo channel gives the impression of a spatial arrangement of sound sources. What's more, the high power output of speakers will give you even more interesting musical experience.

Easy connection

To connect to the device, all you need is a widely available cable with a 3.5mm plug. It is also possible to synchronize the speakers via

Bluetooth, which makes it even easier and more convenient to use them. Wired or wireless connection? The choice is yours!
