Rockbros Polarized Cycling Glasses 10138

If you're a sports lover and you're looking for adequate eye protection, the universal polarized glasses from Rockbros are sure to be a great choice for you. The glasses provide 100% UV protection and hold firmly in place during a fast ride. They are extremely lightweight, so you won't feel any discomfort even during prolonged use. The set comes with corrective eyeglass frames, which you can use at the same time with the 10138 model.

Protecting your eyes

Are you interested in increasing your comfort during sports? Stock up on glasses from Rockbros and take care of your eyes! Thanks to the polarized function, your visibility will drastically improve, colors will be more saturated, and - most importantly - your eyes will not get red, teary or burning. The glasses adjust perfectly to the level and type of lighting. This allows you to engage in your favorite activities without any problems. In addition, the glasses are very durable!

Universal

Rockbros polarized glasses are great for many outdoor activities. You can use them while cycling, on a mountain trip or on a fishing trip. The glasses provide UV 400 protection, so you do not have to worry about the harmful effects of ultraviolet rays. Thanks to its well-thought-out design, the Rockbros product is extremely lightweight, stably stays in place, and is very comfortable to use. The set

comes with accessories for storing glasses and corrective eyeglass frames.
