

Bicycle Phone Holder Rockbros 699-BK

Bicycle Phone Holder Rockbros 699-BK

Ref: 5905316140639

Rockbros 699-BK bike phone holder

The bike mount allows you to use your smartphone comfortably and does not block access to the buttons. Thanks to special security features, it ensures the stability and safety of your device, and its wide compatibility means it will fit most phone models. It is suitable for bicycle handlebars with a diameter of 22.2 - 31.8 mm, and you won't have any problems installing it.

Safety of your smartphone

The mount is equipped with 5 arms, so you can be sure that your smartphone will not be damaged. In addition, non-slip silicone straps protect your device from moving and scratching, and additional reinforcement provides stability, so you don't have to worry about your smartphone falling out while driving on a bumpy road.

Thoughtful design

The product is made of CNC-processed aluminum alloy, which translates into light weight, strength and high resistance to damage, such as oxidation. Moreover, it fits smartphones whose width does not exceed 95 mm. In addition, you will mount the mount on the handlebars of bicycles or motorcycles with a diameter in the range of 22.2 - 31.8 mm. In addition, it offers 90/180/270/360° adjustability.
