Slip Joint Pliers Deli Tools EDL25510 10" (black&yellow)

Ref: 6974173011658

Deli slip joint pliers EDL25510

Deli's convenient slip joint pliers EDL25510 will meet the needs of both amateur DIYers and demanding professionals. They are mainly used to fix round parts, but they can also replace small wrenches for screwing nuts and bolts. High-grade carbon steel is used to manufacture the tool, which makes it stand out for its impressive strength and hardness of up to 45-48HRC. The pleasant-to-the-touch, chrome-plated, non-slip handles feel great in your hand and make using the tool extremely comfortable. You can also conveniently adjust the jaw width.
