

Headlamp Nitecore NU25, 400lm, USB

Ref: 6952506407439

Headlamp Nitecore NU25, 400lm, USB

Nitecore NU25 headlamp flashlight, 400lm, USB

The Nitecore NU25 headlamp will be good for a trip to the mountains or working in low-light conditions. Its maximum brightness is 400 lm, and its operating time is 45 h. You can customize its performance, and it also offers 3 light sources. In addition, the USB-C port makes charging easy, and the thoughtful design ensures durability and comfort.

Bright and eye-pleasing light

The flashlight is distinguished by a light transmission of more than 94% and has high-quality LEDs, which translates into efficient operation. Moreover, its maximum brightness is 400 lm, and its range is 64 meters. In addition, it generates stable, even and eye-pleasing light. Therefore, it will be perfect, for example, when running in the evening.

3 light sources

Nitecore NU25 offers 3 light sources. Spotlight casts light over a longer distance and provides a range of up to 58 m and a brightness of 200 lm. The Floodlight, on the other hand, will work well at a shorter distance, casts light at an angle of 100°, and its brightness reaches 200 lm. You can also use both modes simultaneously. On the other hand, you'll use the Redlight when observing nature at night or taking photos.

Tailored to your needs

The Nitecore NU25 flashlight allows you to adjust the brightness at levels: 6 / 10 / 60 / 200 / 400 lm, so you can adjust its performance to your needs. What's more, the product offers 2 special modes. SOS with a brightness of 400 lm will allow you to call for help, and Beacon (400 lm) will ensure your visibility after dark, for your safety.

Lightweight and ergonomic

The flashlight is distinguished by its lightweight and compact design - its weight is 56 g. It was created from lightweight PC, which translates into long-lasting comfort. Moreover, the strap is made of skin-friendly materials, and you can also detach the flashlight and use it as a running band. In addition, the reflective element ensures your visibility after dark.

Up to 45 h of operation

The Nitecore NU25 features a 650 mAh lithium-ion battery that provides up to 45 h of operation (at the lowest brightness level). What's more, it has a USB-C port where you'll plug in a cable to charge the device. Meanwhile, the blue indicators will let you know the battery level - just press the Mode button. In addition, it stays in standby mode for up to 365 days.

Durable and easy to use

The product is distinguished by its durable construction. It was created from durable and cold-resistant PC. What's more, it features IP66 water and dust resistance, as well as resistance to falls from 1 meter. Meanwhile, operation of the device is facilitated by buttons: power and mode selection. In addition, the Lockout mode locks access to the buttons, so you will prevent the flashlight from being turned on during storage.

Specification:

□Manufacturer

□Nitecore

□Model

□NU25

□Brightness

□up to 400 lm
