

Headlamp flashlight Nitecore UT27 PRO, 520lm

Headlamp flashlight Nitecore UT27 PRO, 520lm

Ref: 6952506406951

Nitecore UT27 PRO PRO headlamp flashlight, 520lm

The Nitecore UT27 PRO headlamp flashlight will be good for hiking, running or evening walks. It stands out with a brightness of up to 520 lm and a range of up to 128 m, and provides a stable and eye-pleasing light. It is powered by a 1300 mAh rechargeable battery and is compatible with AAA batteries. It allows you to adjust the brightness and choose between several operating modes. In addition, it is made of durable PC and is resistant to water (IP66) and drops of up to 1m.

2 power sources

The flashlight is powered by a 1,300 mAh lithium-ion battery, which allows for more than 500 charging cycles. You can also replace it with a new one when it wears out. In addition, it supports AAA batteries (3 pieces), which are readily available. In addition, the battery compartment is illuminated, so replacing them after dark will be easier. In addition, APC technology ensures low power consumption - as a result, the flashlight remains in standby mode for up to 365 days.

Customize its operation to suit your needs

Nitecore flashlight has been allowed to adjust the brightness at several levels: 55 / 200 / 400 / 520, so you can adjust its performance depending on the situation. What's more, it offers light with a color temperature of 3000 K and 5700 K. You can also use the auxiliary red light, which you will use, for example, when observing nature at night or taking photos.

More possibilities

The Nitecore UT27 PRO offers a Lockout mode, which locks the flashlight's buttons to prevent accidental activation during transport. You can also adjust the UT27 PRO's 180° position, and the included diffusion pouch will come in handy when camping or storing the flashlight.

Lightweight, robust design

The Nitecore UT27 PRO is made of PC and ABS, which translates into a weight of only 74 g and durability. What's more, the armband was created with breathable material and provides long-lasting comfort. The silicone placed inside traps sweat and prevents the headband from slipping off the forehead. In addition, reflective stripes ensure safety. The flashlight is also IP66 waterproof and resistant to drops of up to 1m, so you can use it without worrying about damage.
