Ref: 6974173011702

Deli mini pliers EDL20025

Professional, universal side cutter pliers Deli EDL20025 in black color also recommended for demanding users. This is a useful tool not only in the workshop, but also in the essentials of every DIY enthusiast. The handle is covered with a special, pleasant-to-the-touch plastic, thanks to which the tool does not slip out of your hand. The pliers are made of high-quality carbon steel, which ensures precise and easy cutting as well as long life and durability. You can easily cut, for example, small cables with them. Thanks to the refined design they open smoothly and provide comfort in use.

Practical

The Deli brand side cutter pliers will prove useful in many situations. They are almost indispensable in the assembler's and toolbox, and should also be found in the DIY workshop. They come in handy when cutting wires, wiring metal ties and more. You will also use them on a daily basis - they are perfect for cutting ribbons or adhesive tape, for example.
