

## Flashlight Nitecore TM03, 2800lm

Flashlight Nitecore TM03, 2800lm

Ref: 6952506407958

Nitecore MH25PRO Flashlight, 3300lm

Are you looking for a flashlight that excels during nighttime patrols, search and rescue operations, or inspections? Choose the Nitecore MH25PRO! This device stands out with its durable, waterproof construction, a brightness of up to 3300 lumens, and an impressive range of up to 705 meters, making it perfect for outdoor activities. It features an enhanced UHi 40 LED and offers several lighting modes to choose from. Its long runtime of up to 650 hours is worth noting as well. The package also includes a lanyard, a clip-on handle, and a flashlight holster.

### The Light You Need

The MH25PRO model is equipped with a top-of-the-line UHi 40 LED, specially designed for flashlights. Its key advantages include compact size and high power. It allows the product to provide a brightness of up to 3300 lumens, a beam intensity of up to 124,300 cd, and a range of up to 705 meters. However, that's not all - the light generated by the flashlight doesn't flicker and is eye-safe.

### Choose from Available Modes

With 2 available user modes, you can easily adjust the flashlight's performance to your expectations. The daily mode offers 8 different settings, including very low, low, medium, and high brightness, turbo, strobe, beacon, and SOS. You also have access to a tactical mode with 6 options - high, medium, low, very low brightness, turbo, and strobe. So, you can provide yourself with precisely the illumination

you need in almost any situation! Move around in the dark without any issues, and if necessary, get noticed and call for help.

#### Durable and Waterproof

The flashlight is made from aerospace-grade aluminum alloy and finished with hard anodizing (military-grade HA III). This makes it exceptionally durable – it can withstand drops from heights of up to 1 meter. It's also distinguished by its IP68 waterproof rating, allowing you to use it confidently in rainy conditions. You can even submerge it up to 2 meters deep without any concerns.

#### Well-Thought-Out Design

The MH25PRO model features an enhanced design that ensures a comfortable grip and prevents it from slipping out of your hand – even when your hands are wet or you're wearing gloves. What's more, 2 built-in indicators will provide you with information about the current charge level and brightness. Two buttons allow for convenient device operation. There's also a small hole for attaching a lanyard to the flashlight. The package includes a special clip, allowing you to attach the product to a backpack or pocket.

#### Even More Advanced Features

Don't worry about your flashlight overheating. The device is equipped with an optical sensor responsible for automatically reducing the light's brightness when an obstacle is nearby, such as a wall. This effectively protects the MH25PRO model from overheating! Also worth noting is the advanced ATR (Advanced Temperature Regulation) technology, ensuring efficient heat dissipation and adapting the device's performance to the surrounding conditions. This means you can enjoy its optimal performance in almost any situation!

#### Very Long Runtime

Don't worry about the flashlight running out of power too quickly. The package includes an efficient 5300mAh Li-ion battery, providing a runtime of up to 650 hours (in very low light mode). You'll also find a USB-C cable in the package, allowing you to conveniently charge the device.
