Flashlight Nitecore TM03, 2800lm

Ref: 6952506404568

Flashlight Nitecore TM03, 2800lm

The pocket-sized Nitecore TINI Cu flashlight can accompany you almost anywhere. It serves as a practical keychain and, with a brightness of up to 380 lumens, provides optimal illumination in almost any situation. The efficient battery ensures a runtime of up to 60 hours, and the copper housing is known for its durability and resistance to damage. The flashlight also offers 4 selectable brightness levels.

Reliable Light Source

The flashlight is equipped with a high-quality CREE XP-G2 S3 LED and an optical lens with a bead surface, allowing it to provide uniform light with a brightness of up to 380 lumens. Furthermore, it has a range of up to 64 meters. This means it will perform well in various scenarios, such as walking your dog in the dark, performing small repairs in the dark, or during a power outage.

Efficient Battery

Thanks to the efficient 280mAh Li-ion battery, the flashlight can operate for up to 60 hours (in low-light mode). You don't have to worry about it running out of power too quickly! Convenient charging of the device is provided by the built-in micro USB port, and the integrated light indicator informs you about the remaining charge level.

4 Selectable Brightness Levels

Your mountain trip is taking longer than expected? Or maybe you need to find something in a dark corner of your apartment? The TINI Cu flashlight is perfect for these and many other situations! The device allows you to choose from 4 brightness levels (low, medium, high, and turbo), making it easy to adjust to your current needs. You also have 2 modes to choose from - demo and daily. The flashlight also remembers the last used settings and automatically restores them.

Every Detail Perfected

The flashlight stands out with its copper housing, not only being very durable but also looking great. Its easy operation is enabled by 2 buttons, and the included keychain attachment allows you to use it as a keychain. Furthermore, the TINI Cu model is exceptionally durable - it can withstand falls from a height of up to 1 meter. It also features IP54 waterproofing, so you can use it in the rain without worries.
