

3in1 Joyroom Colorful USB to USB-C/Lightning/Micro USB cable

Ref: 6941237121004

3in1 Joyroom Colorful USB to USB-C/Lightning/Micro USB cable 3.5A, 1m (white)

Joyroom 3-in-1 Colorful USB to USB-C/Lightning/Micro USB 3.5A cable, 1m (white)

The Joyroom 3-in-1 Colorful cable will meet the charging needs of most of your mobile devices. It offers 3.5A charging current and a convenient 1-meter cable that splits into 3 connectors - USB-C, Lightning and Micro USB. You'll conveniently retract it with a specially designed mechanism for safe storage. It's ideal for those who appreciate functionality, efficiency and tidiness in their cables.

Three connectors in one cable

The Joyroom S-A40 cable is equipped with three different connectors - USB-C, Lightning and Micro USB, allowing you to charge almost any device. With its help, you'll charge most of your devices - from smartphones to tablets and consumer electronics.

Fast and safe charging

With Joyroom, charging your devices is fast and hassle-free. With a stable current transmission of up to 3.5 amps, the cable instantly replenishes your devices' energy while maintaining safety. So you can charge 3 devices simultaneously without worrying about their condition.

Durability for years

The PC+TPE material of the cable provides flexibility and resistance to bending and twisting, which translates into long-lasting and

reliable use without risk of damage. What's more, the retractable design is an additional protection against damage, so you can be sure that the Joyroom cable is an investment in long-term trouble-free use.

Convenient to use

The cable was created with your comfort in mind. The 1 meter length makes it ideal for use at home, in the office and on the go. The retractable design makes it easy to store in your bag, backpack or pocket without worrying about damaging it.
