

2-in-1 Audio adapter Joyroom SY-L01 Lightning to 3.5mm + Lig

Ref: 6956116773830

2-in-1 Audio adapter Joyroom SY-L01 Lightning to 3.5mm + Lightning (black)

2-in-1 Audio adapter Joyroom SY-L01 Lightning to 3.5mm + Lightning (black)

The Joyroom SY-L01 2-in-1 Audio Adapter allows you, for example, to connect headphones and an iPhone to an iPad. It is equipped with a lightning connector, a lightning port, and a 3.5mm jack, and thanks to its intelligent chip, it guarantees high-quality sound. It also enables fast charging with an intensity of up to 2.4 A. The product is very durable and resistant to damage.

Many Possibilities

With this adapter, you can connect headphones or a phone to your chosen device with a lightning input. The SY-L01 model is equipped with an intelligent chip that allows lossless sound conversion. Consequently, it ensures clear, distinct sound - both during phone calls and while listening to music. Furthermore, the lightning port of the adapter allows for fast charging, offering an intensity of 2.4 A. So, you can simultaneously watch a movie and charge your selected device!

Solid Construction

The SY-L01 adapter stands out not only for its functionality but also for its solid, durable construction. Its connectors have low susceptibility to oxidation and wear, and the nylon-braided cable is very durable and resistant to damage. It can withstand even multiple bends without a problem! Get an accessory that will serve you for a long time.
