

Gaming Controller GameSir X2 Pro White USB-C with Smartphone

Ref: 6936685220478

Gaming Controller GameSir X2 Pro White USB-C with Smartphone Holder

GameSir X2 Pro White Controller with Phone Holder

The GameSir X2 Pro Black controller is a modern solution for mobile gaming enthusiasts. It features a direct USB-C connection, zero input lag, and the ability to charge your phone while gaming. With the GameSir App, the controller allows key mapping and compatibility with apps that do not natively support controllers. Its durability, build quality, and additional accessories make it an excellent choice for every gamer.

Direct USB-C Connection

The GameSir X2 Pro controller offers a direct connection to your phone via a USB-C port. This feature not only ensures a fast and stable connection but also eliminates any input lag, which is crucial for gaming. Thanks to this solution, the gaming experience is smooth and responsive, greatly enhancing user comfort.

Pass-Through Charging

One of the unique features of the controller is the pass-through charging capability. This allows you to charge your phone while gaming, which is incredibly practical and enables long gaming sessions without worrying about battery depletion. This solution is especially beneficial for gamers who spend many hours playing their favorite games.

Personalization with GameSir App

The GameSir App opens up new possibilities for personalization. Users can map keys according to their preferences, which is especially useful in games that require quick and precise reactions. The app also allows the controller to work with apps that do not typically support controllers, significantly expanding the range of compatible games.

High Quality and Durability

The GameSir X2 Pro controller is equipped with Kailh microswitches, guaranteeing a lifespan of up to 3 million clicks, and analog triggers with Hall Effect Magnetic Sensors. Its build quality ensures not only durability but also precision in operation, which is essential for demanding gamers.

Comfort and Ergonomics

The controller weighs only 179g, and its dimensions provide comfortable grip and manipulation during gaming. Additionally, the package includes thumbstick covers that can be customized to individual needs, enhancing user comfort.
