APEXEL APL-HB100FL23 100mm Macro Lens with LED Illumination (Black)

The APL-HB100FL23 100mm macro lens with LED illumination is an innovative addition to your phone that allows you to capture the finest details with incredible precision, making every photo look like a professional photograph. With optimal focusing distance, exceptional LED lighting, and the ability to adapt to any phone model, APEXEL transforms your device into an advanced photographic tool. Whether you're a macro photography enthusiast or simply want to enhance your photos, APEXEL APL-HB100FL23 is the perfect choice, offering 4K full HD image quality and exceptional illumination for every shot.

Best Focusing Distance

The APEXEL APL-HB100FL23 stands out with its optimal focusing distance of 40-70mm, allowing you to capture exceptional details up close. This precision enables the creation of photos with impressive depth and details that catch the eye. This functionality makes the lens an ideal choice for macro photography enthusiasts, allowing them to explore the micro-world in surprisingly clear detail.

4K Full HD Image Quality

The APEXEL APL-HB100FL23 lens offers unparalleled 4K Full HD image quality, ensuring that every photo is clear, detailed, and full of life. This feature allows you to capture every moment with unprecedented precision and clarity, regardless of lighting conditions. Excellent image resolution makes every shot a potential work of art, ready to be admired in full glory.

Advanced LED Lighting

Integrated, highly powerful LED lighting with 250 lux at 0.5m and CRI at 95+ ensures that every photographed object is perfectly illuminated. This feature is invaluable in low-light situations, allowing you to create bright and clear photos without the need for external light sources. LED lighting not only facilitates photography in the dark but also enhances colors and details, which is crucial in macro photography.

Universal Mount

Thanks to the adjustable frame width, the APEXEL APL-HB100FL23 lens fits almost any phone model. The lens mount with a slider allows precise alignment of the phone lens with the Apexel lens, ensuring perfect alignment and stability during photography. This mounting flexibility makes the lens an exceptionally practical tool for anyone looking to improve their photos.
