Smartwatch Haylou Solar Lite (Silver)

The Haylou Solar Lite smartwatch combines style and advanced technology, making it perfect for active individuals who prioritize their health. It stands out with its elegant silver finish, large touchscreen, and versatile features for monitoring physical activity and health. You can easily sync it with your smartphone, enjoying access to notifications and apps, all with an impressive battery life of up to 10 days. Here are the key features that set the Haylou Solar Lite apart from the competition.

Custom Watch Faces

The Haylou Solar Lite offers over 100 diverse watch faces, allowing you to customize the watch's appearance to match your style. The ability to set your own photo as a watch face background further personalizes the device. This is not only an aesthetic feature but also a testament to flexibility and innovation in user interface design.

Physical Activity Monitoring

For sports enthusiasts, the Haylou Solar Lite offers 100 physical exercise modes. The watch not only tracks your workouts but also analyzes key life parameters during physical activities. It's an excellent workout companion that helps you track your progress and maintain a healthy lifestyle.

Women's Health and Wellbeing

A unique feature is the tracking of women's physical health. The watch predicts fertile days and menstrual cycles, sending appropriate notifications. This is an invaluable function for women who want to track their menstrual cycle and plan their activities with greater awareness.

Advanced Health Monitoring Features

The Haylou Solar Lite is equipped with sleep quality tracking, including length, depth, and REM phases. Additionally, monitoring blood oxygen levels and continuous heart rate and stress level alerts provide a comprehensive overview of your health status.

Connectivity and Smart Features

The watch offers easy connectivity to your phone via Bluetooth 5.3, enabling access to calls, messaging apps, and other applications. The built-in relaxation breathing mode helps with daily rejuvenation by teaching you to relax through controlled breathing at a specific pace. The metal bezel around the watch face adds elegance.

Water Resistance

The water resistance of the Haylou Solar Lite is a significant advantage for those leading an active lifestyle or frequently near water. With an IP68 certification, the watch provides protection against dust, sweat, and splashes, allowing you to use it on rainy days or during pool workouts. This feature makes it an ideal companion for athletes, adventure enthusiasts, and people who don't want to limit their daily activities. You don't have to worry about damaging the watch while washing your hands, swimming, or accidentally submerging it in water, adding extra value and reliability to the Haylou Solar Lite.
