Smartwatch QCY WATCH GS (black)

Get reliable daily support. The QCY WATCH GS smartwatch is equipped with a high-quality TFT HD display with a diagonal of 2.02 inches, providing a refresh rate of up to 60 Hz. The device offers many practical features, allowing you to monitor your health and sports achievements. It also supports Bluetooth connections and ensures constant access to notifications. Its battery life can even reach up to 10 days on a single charge. The watch is compatible with Android 8.0 or iOS 13.0 and newer systems.

TFT HD Display

The QCY WATCH GS smartwatch impresses with its classic yet modern design, suitable for any style. Its 2.02-inch HD TFT display with a 60Hz refresh rate ensures smoothness and sharpness of the image. Combined with a screen-to-body ratio of 78%, it guarantees excellent visibility and user comfort. You can even personalize the watch face by choosing from over 100 options available in the QCY APP. You can even upload your own photo!

Achieve Your Dream Form

Get extra motivation for your workouts. The QCY WATCH GS smartwatch offers advanced health and activity monitoring technology. You can choose from 100 sports modes, ensuring that the device will accurately track every move, recording distance, burned calories, and other statistical data, such as calorie intake.

Keep Your Finger on the Pulse

The WATCH GS model is equipped with advanced sensors that monitor your heart rate, blood oxygen saturation, sleep quality, and help manage stress through tests and breathing exercises. The smartwatch can also serve as a menstrual calendar. Additionally, it will notify you when you've been sitting for too long and encourage you to be active.

Always Ready for Action

Thanks to innovative energy management, the QCY WATCH GS smartwatch offers up to 10 days of battery life in basic mode or up to 4 days with intensive use. Moreover, the device is waterproof at the IPX8 level, so sweat or rain won't harm it. As a result, you can confidently use it during intense workouts or outdoor activities.

Stay Always Connected

With Bluetooth support, the QCY WATCH GS allows you to receive phone calls directly from your wrist. Message notifications will help you stay connected no matter where you are.

Practical Features

The QCY WATCH GS smartwatch offers many features that make daily tasks easier. The watch allows you to remotely control your camera's shutter, check the weather, and set alarms. You also have a feature to locate your phone.
