Smartwatch QCY WATCH GT (black)

Looking for a functional smartwatch that will excel in your daily life? Choose the Watch GT model from the QCY brand! The device supports Bluetooth phone calls and offers over 100 sports modes to choose from. It can also monitor your heart rate, sleep, and much more. It comes equipped with a round Retina AMOLED display with a brightness of up to 1000 nits, and its battery life lasts up to 10 days on a single charge. It is also distinguished by its elegant, durable construction and IPX8 water resistance.

1.43" AMOLED Display with Always-on Display Function

Enjoy the convenient operation of the smartwatch and fantastic image quality. The Watch GT model offers a high-quality AMOLED display with a resolution of 466x466p and a refresh rate of 60 Hz. Moreover, its brightness reaches 1000 nits, making it perfect even in very bright light - you'll have no problem seeing everything on it! The smartwatch also supports Always-on Display and allows you to choose from hundreds of original screen patterns. Custom dials are also available, so you can customize the device to your preferences even better!

Refined in Every Detail

Durable materials such as aluminum alloy and zinc alloy were used to make the smartwatch. This not only makes the device very durable but also gives it a stylish look - it will be an incredibly stylish addition to your wrist. The watch is also IPX8 waterproof, so it can

accompany you even during intense workouts and walks in the rain - no need to worry about damage!

Plenty of Useful Features

The smartwatch supports Bluetooth calls, so you can answer the phone at any time without reaching for your smartphone. It's the ideal option for workouts and more! The watch also allows remote control of the music player paired with it. If you're looking for additional features, try the dedicated QCY app, which offers many interesting functions such as phone location, alarm clock, weather, stress level checking, and much more.

Take Care of Your Health

With the QCY Watch GT smartwatch, you can also get to know your body better and take care of your health. The watch measures your heart rate 24/7 and also offers sleep monitoring and SpO2 measurement. It also works as a menstrual calendar. Keep track of your health and respond quickly to any worrisome symptoms!

Your Personal Trainer

Trying to lead an active lifestyle? The QCY smartwatch will help you track your progress! The device measures distances traveled, counts steps, and calculates calories burned, so you'll immediately know if you've achieved your goals. You also have access to over 100 sports modes. Treadmill, walking, or running? You'll certainly find the perfect discipline for yourself!

Efficient Battery

Forget about the need for frequent smartwatch charging - the QCY Watch GT model will serve you well for a long time! The device is equipped with an efficient battery, allowing it to operate for about 4 days with regular daily use or even up to 10 days in basic mode. To charge the watch, use the included magnetic cable.
