Aigo RAINBOW 2 computer case (black)

Aigo RAINBOW 2 computer case (black)
The Aigo RAINBOW 2 computer case from renowned manufacturer Darkflash is the choice for discerning users looking for robustness, aesthetics and functionality. Featuring a bold geometric design and attractive RGB backlighting, the Middle Tower case is compatible with ITX, M-ATX and ATX motherboards. With convenience in mind, the manufacturer used an acrylic side panel and clear interior organization to support efficient system expansion.

Organized space for your hardware
Aigo RAINBOW 2 offers a well-thought-out interior space for convenient component placement. Having two 2.5" bays and two 2.5/3.5" bays gives you the flexibility to configure hard drives and SSDs, which is key to optimizing speed and storage capacity. In addition, seven expansion card slots and support for graphics cards up to 310mm guarantee compatibility with the latest components.

Optimal cooling
Maintaining the optimal temperature of components is essential to their longevity and performance. The Aigo RAINBOW 2 chassis allows the installation of a 160 mm CPU water cooling system and a 120 mm fan on the rear wall, ensuring efficient heat dissipation and maintaining stable system operating conditions.

Ease of installation and aesthetically pleasing design
The build quality of the Aigo RAINBOW 2, including metal construction and convenient cable routing in the rear of the case, translates into a durable and elegant product. Built-in USB 2.0, USB 3.0 and HD Audio connectors provide easy access to basic functions and connectivity to other devices. The black color and modern design make the case look fantastic on a gaming workstation or workplace.
