Aigo E330M computer case + 4 argb fans (black)

Aigo E330M computer case + 4 argb fans (black)

Aigo E330M is a computer case from Darkflash, dedicated to users who expect not only aesthetics, but also precision in the design of their system. The robust design with double-sided tempered glass not only provides an attractive appearance, but also allows easy access to components. The spacious interior allows for comfortable installation and space management for various hardware configurations. In addition, you'll find 4 ARGB fans included in the kit, so you can not only take care of optimal heat dissipation, but also emphasize the gaming character of your hardware.

Effective heat dissipation

The E330M stands out for its support of advanced cooling systems, allowing the installation of up to 6 120mm fans, which significantly contributes to the thermal efficiency of the case. Compatibility with water cooling up to 360 mm at the front and 240 mm at the top allows for efficient solutions, which are crucial when building high-performance systems, especially during heavy use.

Compatibility and expansion

The Darkflash E330M chassis offers a wide range of expansion options, allowing the installation of 2 HDDs and 2 SSDs to provide ample storage space. With 5 expansion card slots and support for graphics cards up to 325mm in length, the E330M is ready to accommodate powerful components, offering the freedom to choose the best parts.

Seamless connection to side hardware

Integrated connectors - USB 3.0, USB 2.0 and HD Audio - provide fast and efficient connectivity to other devices and are easily accessible, improving the overall ergonomics of use. Power and Reset buttons are intuitively placed, providing quick and easy management of basic system functions.

Included

Motherboard / SSD screws: x 12

Mounting columns: x 4 (4 have already been installed in the hardware)

Screws for the power supply unit (PSU): x 6

HDD screws: x 8

Clamping bands: x 5

Copper column sleeves: x 1
