

Computer case Darkflash DLM22 (white)

Computer case Darkflash DLM22 (white)

Ref: 4710343790761

Darkflash DLM22 computer case (white).

If you're looking for a computer case that features a minimalist design, allows good space organization and offers a number of optimal solutions, the Darkflash DLM22 will be an excellent choice. Made of tempered glass, the side panel gives a convenient view of the computer's interior, and the vents provide efficient cooling. The product is also compatible with a wide range of devices, so you can freely supplement and improve your computer. Among other things, the top of the case features a USB 3.0 port.

Carefully thought-out design

You no longer need to use tools to disassemble the case and replace parts. You can conveniently open the magnetic side panel whenever you need it. Made of tempered glass - it allows you to perfectly display individual computer components. It also allows for excellent lighting effects. Steel panels of the case ensure its durability and give it a modern, minimalist character. The product is also distinguished by its excellent texture.

Optimal solutions - efficient cooling

Don't be afraid of problems with computer cooling. The ventilation holes located on the right panel not only do a fantastic job, but also look great. The product is compatible with various types of components. For example, you will successfully install 2 120 mm or 140 mm air coolers each, as well as a 240 mm water cooler. In total, you can install as many as 6 fans! The case is also equipped with an internal

cooling duct.

Wide expansion possibilities

However, this is not the end of your possibilities! The model is compatible with a variety of parts, and its user-friendly design makes it easy to expand or upgrade your computer. It also allows you to make optimal use of the available space. Among other things, the case allows you to mount SATA 2.5 drives, a 350/330 mm VGA card or a 210 mm power source.

Compatibility with USB 3.0

Enjoy the advantages of high-speed USB 3.0 transmission. The corresponding port located on the top of the case will provide you with even more convenience. It is also backward compatible with USB 2.0. The product is also equipped with HD audio and USB 2.0 ports, so you can successfully adapt it to your needs and create the perfect computer for you.
