Aigo ARC1 computer case (black)
Choose the Aigo ARC1 computer case and compose your ideal entertainment or work center! The side panel and front panel made of tempered glass not only provide excellent visibility of the interior, but also emphasize the modern character of the case, allowing you to expose backlit components. It works with a variety of components and offers a number of practical ports, including USB 3.0.

Create your dream computer
The Aigo ARC1 case will allow you to create your dream computer! It offers up to 4 expansion card slots, allowing you to expand your system freely, giving you full control over its configuration. It provides two slots for mounting 3.5" HDDs and three slots for 2.5" SSDs, meaning you no longer have to worry about lack of space to store your data or games. It also allows you to install CPU cooling up to 157mm high and a graphics card with a maximum length of 400mm.

Optimal cooling
Do you need maximum performance when working in a demanding graphics program? Or do you want to enjoy extremely dynamic gameplay? Now you can forget about worries about your computer overheating and losing performance! The ARC1 case allows you to mount up to 9 120 mm fans, providing optimal cooling for your system.

Everything you need

Do you care about fast data transfer? The Aigo ARC1 case is the answer to your needs! It features several useful ports and buttons for maximum convenience. With HD audio, USB 3.0 and USB 2.0 connectors, you can quickly connect your favorite audio devices and transfer data at incredible speeds.
