Darkflash Q15 computer case

Ref: 4710343798033

Computer case Darkflash Q15

Darkflash Q15 computer case
Create a computer that you will enjoy playing and working on. The Darkflash Q15 computer case allows you to mount SSD x1 + HDD x2 / SSD x2 + HDD x1, a graphics card up to 360 mm long and a CPU cooler with a height of 135 mm max. In addition, it offers 2 USB 2.0 connectors and a headphone input. Thanks to its well-thought-out design, it won't take up much space either.

Various expansion options
Build your dream computer with the Darkflash Q15. The case supports such motherboard standards as M-ATX and ITX. What's more, it allows you to mount a CPU cooler up to 135 mm high and a graphics card up to 260 mm long. It also offers 4 expansion card slots and SSD x1 + HDD x2 or SSD x2 + HDD x1.

Additional ports
The Darkflash Q15 chassis is equipped with a convenient power button and a headphone/speaker port. On the front panel you will also find 2 USB2.0 inputs, with which you can connect additional devices to your computer.

Refined, minimalist design
The Darkflash Q15 computer chassis is distinguished by its small design, so it will be suitable for smaller rooms without taking up much
