Darkflash A01 computer case (black)

The Darkflash A01 offers various expansion options to meet the needs of even the most demanding users. It allows the installation of up to 8 fans and offers 7 slots for expansion cards. What's more, it supports motherboard standards such as ATX and M-ATX and allows you to mount a graphics card up to 320 mm long and a CPU cooler up to 165 mm high.

Refined design

The side panel of the case is made of tempered glass, allowing all the computer components to be exposed. What's more, the use of mesh on the top and bottom of the A01 reduces the risk of debris entering the case and makes cleaning easier.

Expansion possibilities

The A01 is a model that provides users with ease of expansion. It accommodates up to 2 SSDs and 2 HDDs, allowing you to configure storage according to your individual needs. In addition, it supports ATX and M-ATX motherboards, which translates into any configuration. It also has 7 additional expansion card slots, and the power supply is located at the bottom of the case for easy organization and cable management.

Effective cooling

The model allows you to build an effective cooling system by installing 8 120mm fans, ensuring optimal working conditions for all components. In addition, the rear part of the case is equipped with a protective steel mesh, which contributes to even more effective ventilation. This is crucial for maintaining optimal temperatures and effective cooling, especially during intensive use.

Additional ports

Several ports and buttons have been placed on the top panel of the case for added ease of use. At your disposal is a large power button, a reset button and an LED button with which you can manage the backlighting. Moreover, there are also 2 USB.20 ports, a USB3.0 port, HD audio and microphone input.
