Putty Trowel 2" Deli Tools EDL-HD2 (yellow)

Ref: 6974173014925

Deli EDL-HD2 Putty Trowel

The classic stainless steel spatula by Deli Tools is an essential tool for most small and large renovation, painting and construction jobs. It is resistant to corrosion, chemical environments, abrasion, and even minor mechanical damage. The Deli spatula 2" (50mm) is made of high-quality steel with a high content of alloying elements, which makes it flexible and resistant to rust. This makes it easy to work with and gives you the feeling of being in control. The hole at the top of the handle allows you to hang the product in the workshop and keeps it tidy.

Application

- Filling in minor defects with plaster or gypsum.
- Sealing holes.
- Furrow filling.
- Scraping off old, flaky layers and dirt from walls.
- Ripping off excess gypsum, mortar or paint streaks to level the surface.
