Interactive Cheerble Wicked Ball for Dogs (orange).

Ref: 6971883204301

Cheerble Wicked Ball SE Interactive Dog Ball (orange).

Provide your beloved dog with great fun with the Cheerble Wicked Ball SE - an interactive ball that supports 3 modes and offers LED backlighting in 4 colors, making every minute of playtime full of surprises. Natural rubber is used to make the device, making it not only durable, but also safe for your pet. In addition, thanks to its IP65 waterproof rating, your dog can have great fun even on rainy days. The toy was created with small dogs in mind, and you will renew its energy using the included DC cable.

### Fun full of surprises

Cheerble is aware of the variety of temperaments of our furry friends, which is why the Wicked Ball SE offers up to 3 modes. Passive mode will be perfect for puppies - it provides calm play and responds to contact by gently bouncing on the surface, allowing you to gradually build trust with your pet. In Normal mode, the ball rolls and bounces, providing an excellent source of daily entertainment and mental stimulation for dogs with standard energy levels. Gentle, on the other hand, was developed for older dogs and those who prefer a gentler form of interaction - when you choose it, the toy will slowly roll and gently shake in response to touch.

### Stimulation of natural instincts

Cheerble Wicked Ball SE's smart movement solutions mimic the movements of natural prey, engaging dogs in healthy and developing play. The unique Smart Movement technology uses random movement patterns to maximize dog engagement and satisfy their innate

hunting needs. In addition, the toy offers LED backlighting in up to 4 colors - cyan, yellow, red and multicolor - to make play visually captivating.

#### Durable and safe for pets

The Cheerble Wicked Ball SE is made of TPU, PC and natural rubber materials, which is resistant to biting and will withstand even the most enthusiastic play. Thanks to its IP65 waterproof rating, the toy can be used both indoors and outdoors, which means fewer restrictions - your beloved dog can have great fun outdoors, too! In addition, the diameter of the ball is only 56 mm, and it weighs less than 104 g, so you can freely take it anywhere.

#### Hassle-free charging and maintenance

With Cheerble the fun doesn't stop! The interactive Wicked Ball SE is equipped with a 135 mAh lithium-polymer rechargeable battery, which provides a long runtime. In the set you will find a DC charging cable, with which you will prepare the toy for further interaction with your pet. In addition, its cleaning will not cause you any difficulties - you can freely wash it under running water.
