Smart pet dryer Catlink Luxury

Ref: 6972884751214

Catlink Luxury Smart Pet Dryer.

Take care of your pet's coat and make it smooth and shiny. The smart pet dryer by Catlink guarantees fast drying and is very pet-friendly. It stands out for its low volume, so it won't stress pets or disturb other household members. It also uses an advanced circulation system that provides constant access to fresh air. In addition, the device generates negative ions and offers a disinfection function. The capacity of the dryer is as much as 65 liters, and its convenient operation is enabled by a dedicated app.

Care without stress

Do not be afraid that your pet will be frightened when using the dryer. The Catlink device works surprisingly quietly - its volume level is only about 40 dB or about 80 dB in fast drying mode. As a result, your pet can feel comfortable - it will not be disturbed by annoying noise. What's more, there is a special function that allows pets to get used to the dryer without stress - it provides very gentle operation without any noise. It is worth using it the first time you use the device!

Fast and safe drying

With the Catlink dryer, drying your pet's hair will only take a few moments. The device is equipped with a powerful motor that operates at up to 1600 revolutions per minute. This allows you to dry your pet's fur in just about 30 minutes! The whole grooming process is done gradually, so that your pet can feel comfortable. At first, the speed and temperature are at a low level, and then slowly increase.

Improved air circulation system

The dryer provides airflow from as many as 6 sides, so it can effectively dry even hard-to-reach areas, such as your pet's belly and paws. You also don't have to worry about it getting stuffy inside. The unit uses an advanced circulation system that ensures that the pet inside it has uninterrupted access to fresh air.

Capacity of 65 l

The capacity of the dryer is as much as 65 l. This means that up to 2 pets will comfortably use it at the same time - you don't have to worry about them being cramped. This is a perfect solution for caretakers of more than one pet!

Convenient operation with the app

Enjoy even more convenient operation of the dryer. The device connects to your smartphone via Bluetooth and works with a dedicated app, with which you can, for example, adjust the temperature level (16-40°C), set the drying time, select the operating mode or set the airflow level. Now you always have all the most important functions at your fingertips!

For the sake of safety

Catlink dryer ensures not only efficiency, but also safety of use. It intelligently monitors the temperature, preventing overheating. It is also equipped with safety relays and fuses. All this means that you do not have to worry about damaging it!

Negative ions - take care of your pet's coat.

The Catlink dryer also generates negative ions, which help moisturize the fur, protect it from thermal damage and give it a beautiful, long-lasting shine. This will make your pet's fur even shinier and smoother!

Something more than a dryer

With the Catlink dryer you can not only dry your pet's fur, but also, for example, disinfect selected items, such as toys or dishes. The device offers the function of sterilization and ozonation, and also effectively eliminates unpleasant odors.

Additional amenities

Does your pet shed a lot of hair? The Catlink dryer will help you solve this problem - during drying, the hair that falls out will be stopped with the help of a built-in filter. In addition, a specially designed door provides convenient access to the inside of the device, and built-in lighting makes it easy to monitor the grooming process. The product is also very easy to clean and durable - it is equipped with scratch-resistant tempered glass elements. There is also a locking function, which prevents accidental activation of the dryer.
