Yaber L1 Projector

The Yaber L1 projector is the ideal solution for those looking for high image quality and reliability in a compact form factor. With a native resolution of 1080x720P, the projector provides a clear and colorful image - you will successfully use it to watch movies, series or display presentations.

Clear image

The Yaber L1 features a native resolution of 1080 x 720P, which ensures sharp and detailed display of content. Thanks to LCD technology and LED lamp, the picture is bright and colors are vivid and saturated. In addition, a color gamut of 45% NTSC guarantees realistic color reproduction. What's more, the manual vertical keystone correction of $\pm 40^\circ$ allows you to easily adjust the image to different projection angles.

Versatility and convenience of use

The Yaber L1 supports a variety of image, video and audio formats, making it an extremely versatile device. The ability to project from the front or back on a desk, or ceiling, gives you complete freedom of positioning. In addition, a wide selection of available applications allows you to comfortably watch movies and series.

Compact design

The projector weighs about 3.9 kg, which makes it easy to carry and store. What's more, it doesn't take up much space, making it ideal for both home use and office use.

Various connectivity options

Equipped with Wi-Fi 6 technology, the Yaber L1 provides a fast and stable connection without interference, which is crucial when streaming high-quality content. The projector also features several ports: HDMI, USB, audio jack and AV, allowing for a variety of devices to be connected, further enhancing its functionality.

Included

- projector
- HDMI cable
- 3-in-1 AV cable
- remote control
- power cable
- cleaning cloth
- lens cover
- user manual
