Yaber U12 projector

Ref: 6975710736737

Yaber U12 Projector

The Yaber U12 offers high picture quality with 700 ANSI lumens of brightness and native 1080P resolution. It supports Linux OS and Netflix, providing access to a wide range of movies and series, and support for Dolby Audio guarantees clear sound. Auto keystone correction, auto focus, and a rotating gimbal make it easy to set up the perfect picture, while sealed construction and cooling technology enhance the unit's durability and performance.

Excellent picture and sound

With LCD display technology and support for Dolby Audio, the Yaber U12 provides not only a visual, but also an audio experience of the highest level. Clear, high-quality sound will make any scene take on a new dimension, while automatic keystone correction and auto focus guarantee a perfectly sharpened image regardless of the projection angle.

Reliable connection and wide compatibility

The Yaber U12 supports Linux OS and Netflix, allowing access to an unlimited number of movies, series, music and games. Wireless connectivity via Bluetooth 5.0 and Wi-Fi 6 makes it easy to stream content without unnecessary cables, and a rich selection of interfaces (USB2.0 x2, HDMI1.4 x2, 3.5mm audio, Lan) ensures compatibility with a variety of devices.

Convenience and mobility

The Yaber U12 projector is equipped with a rotating gimbal that allows you to adjust the projection angle within 30°. This allows you to adjust the image to different conditions. In addition, the dedicated handle makes it easy to carry the device.

Durability and performance

The sealed design of the Yaber U12 protects against dust, which significantly extends the life of the device. In addition, the semiconductor cooling technology not only prevents overheating, but also increases image brightness by 30%, ensuring the best visual experience at all times.
