

Filter Freewell Snow Mist 1/8 V2 Series

Filter Freewell Snow Mist 1/8 V2 Series

Ref: 6972971865091

Freewell V2 Snow Mist 1/8 series diffusion filter.

Protect your lens and capture phenomenal shots with the Freewell Snow Mist 1/8 Series V2 Diffusion Filter. It is designed for VND V2 filter system owners to add a delicate, artistic effect and enhance the aesthetics of your photos. The effect of the Snow Mist 1/8 filter is to create a subtle and eye-pleasing haze that gives your photos an unearthly, dreamlike feel. Blurring the surface of the frame makes subjects more mysterious and captivating, giving your photographs a unique artistic expression.

High quality workmanship

Made of high-quality materials, the Snow Mist 1/8 filter is not only durable, but also lightweight and easy to use. Thanks to the magnetic design, installation of the filter is instant.
