

Magnetic Supercolor Panel Recycled blocks 52 pieces GEOMAG G

Ref: 0871772003786

Magnetic Supercolor Panel Recycled blocks 52 pieces GEOMAG GEO-378

Magnetic Supercolor Panel Recycled blocks 52 pieces GEOMAG GEO-378.

Geomag Supercolor Panels Recycled Magnetic Bricks Set is a colorful guide to the world of building and geometry. It contains as many as 52 pieces and is designed for builders aged 5 and up. It allows children to combine learning with fun in an interesting way! What's more, the clickers were created from 100% recycled plastic, making them highly durable, yet environmentally friendly.

The strongest magnetic elements

Using the included sticks and balls, children can easily create original constructions. Strong magnets guarantee the solidity and durability of each construction, and bright, vivid colors not only attract the eye, but also stimulate the aesthetic sense and creativity during play. In the package you will also find triangular, square and pentagonal panels, thanks to which little engineers will further strengthen and decorate their projects.

Education through play

By playing with Geomag Supercolor blocks, children develop motor skills, imagination, creativity and spatial thinking. The set also supports STEM education, helping young minds learn through experience and play, while awakening their curiosity and creative invention.

Practical storage

The set also includes two boxes that make it easy to keep the pieces organized and tidy. This is ideal for parents and caregivers who appreciate the ease of cleaning and storing the blocks. It also helps avoid losing small balls and sticks.

Set includes

16x magnetic stick 16x metal ball 10x triangular panel 8x square panel 2x pentagonal panel 2x storage box
