

Glow Recycled Magnetic Blocks 60 pieces GEOMAG GEO-338

Ref: 0871772003380

Glow Recycled Magnetic Blocks 60 pieces GEOMAG GEO-338

Glow Recycled Magnetic Blocks 60 pieces GEOMAG GEO-338.

Geomag Glow is an innovative construction set that will take young engineers into a world of fun and learning. Thanks to glow-in-the-dark magnetic sticks, each model created during the day comes to life after dark, offering a double dose of fun and magic. In the package you will find up to 60 pieces, which were created from environmentally friendly recycled plastic. The set is suitable for children ages 3 and up.

Magic glow in the dark

With as many as 60 elements, the Geomag Glow Recycled set offers almost unlimited possibilities for creating structures that can be built and modified, entertaining and teaching at the same time. What's more, natural glow-in-the-dark substances have been used to make the magnetic sticks, ensuring great fun and amazing effects both day and night.

Development through play

Building with Geomag Glow supports scientific and technological development in accordance with STEM principles. Children learn the basic principles of physics, engineering and mathematics through hands-on play, in addition to developing their manual skills, imagination and creativity.

Hassle-free storage

The set includes three storage boxes that make it easy to stay organized and convenient for both kids and parents. Thanks to them, you can quickly clean up after play and organize the space properly, as well as avoid losing the tiniest pieces.

Set includes

28x magnetic glow-in-the-dark stick
28x metal ball
2x square base
2x pentagonal base
3x storage box
